

Dynamic Positioning Awareness (Online) 1.5-Day Course

Course Overview

This is a foundation course for personnel who want a basic understanding of Dynamic Positioning (DP), including the advantages and limitations of DP and the concept of redundancy. This course will be an online “virtual” course delivered over 1.5 days using the Microsoft Teams platform with “live” lessons.

This course is delivered in English. The maximum course capacity is 4, minimum 1. The number of participants has intentionally been kept to a maximum of 4 to allow attendees the opportunity to interact with and ask the Instructor questions.

Planned Course Dates

The planned dates for online DP Awareness course are as below:

- 23 to 24 July 2020
- 27 to 28 August 2020
- 1 to 2 October 2020
- 5 to 6 November 2020
- 17 to 18 December 2020

Ad hoc course is subject to instructor availability.

Course Content

- History & Development of DP
- Elements of a DP system
- DP system layouts
- DP theory of operation
- DP modes of operation
- Propulsion systems
